Title: Smart, Cool, Affordable – A VSE Perspective on the IBM System z10 Business Class
Speaker: *Mike Augustine, IBM - Offering Manager, System z*
This webcast will provide an overview of the new z10 BC announced October 21, 2008 for z/VSE users.
It will highlight why this server is the affordable choice that delivers more value than previous midrange servers
and new technology that is the smart choice. IBM's new mainframe aims to assist midsize companies to
jumpstart new application development efforts; consolidate IT servers; and give organizations a platform to
build the mainframe as the foundation of their new enterprise data center.

Developed for: z/VSE Customers, IBM Business Partners, IBMers
Technical level: Basic to Intermediate
Duration: 75 minutes
