

IBM Linux on System z Executive Advisory Customer Council

Friday June 7th , 2013 8:30 AM – 1:00 PM

Hosted at Insurance Services Office

545 Washington BLVD

Jersey City, NJ 07310

You're invited to join us for the next session of the Linux on System z Executive Advisory Council. We launched this council in 2002 in order to garner your insights and foster communications among the System z Linux community. We are grateful to accept ISO's gracious invitation to host this council session at their auditorium, particularly given our tremendous gains in attendance and popularity.

The council welcomes Avijit Chatterjee to the session. Avijit is an IBM Senior Technical Staff Member in the Software competitive project office. Avijit will be discussing why it makes sense to process data on system Z. Our next speaker will be Rich Skinner. Rich comes to us from Brinqa Risk Analytics. At the session Rich will be talking about Brinqa Risk Analytics offerings recently certified on zLinux . We are also pleased to announce a College/University panel. Cameron Seay North Carolina A&T and Howard Baker Marist College will discuss educational programs and we will also hear from students. Michael Todd from IBM Academic Initiative team will be the facilitator. Our last speaker will be Donna Dillenberger from IBM research. Donna will be discussing her recent work in Fraud Analytics Solutions on System Z.

Agenda

8:30 AM	Arrival and Continental Breakfast
