

Wisconsin Linux on zSeries User Group

Wednesday, December 8th, 2004

Agenda

- 1:00pm
 - o Welcome and Introductions
- 1:00pm to 2:00pm
 - o Presentation – **Metavante zLinux Proof of Concept Experiences**
Paul Koniar, Systems Programmer Specialist, Architect & Manager,
Enterprise Systems Management Group, Metavante Corporation

Paul will describe Metavante's experiences with a zLinux Proof of Concept project. What worked, what didn't, and why. This will be a great, valuable, "lessons learned" discussion.

- 2:00pm to 2:15pm
 - o Break
- 2:15pm to 3:30pm
 - o Presentation – **DB2 for Linux on zSeries**
Rahul Kitchlu, DB2 Linux Strategy and Plan, IBM Canada Ltd.

DB2 UDB for Linux on zSeries supports the increased scalability and enhanced feature set of the new 2.6 Kernel and 64-bit addressability, and also provides autonomic features such as High Availability and Disaster Recovery. Learn how and when to use DB2 UDB for Linux on zSeries to help simplify your IT infrastructure.

- 3:30pm to 4:00pm
 - o User Group Business
- 4:00pm Adjourn

Location: Northwestern Mutual
One Northwestern Mutual Way
Franklin, WI 53132
