

Wisconsin Linux on zSeries User Group

Wednesday, December 13, 2006

Agenda

- 1:00pm to 1:15pm
 - o **Welcome and Introductions**
- 1:15pm to 2:15pm
 - o Presentation – **z/VM and Linux Performance Management**
Mac Holloway, Software Group, IBM

As you move new workload applications from the Development environment to Production, it is essential to have performance monitoring and management capabilities in place. This presentation will overview the [Omegamon for zVM](#) and [zVM Performance Toolkit](#) capability, functionality and future direction.

- 2:15pm to 2:30pm
 - o **Break**
- 2:30pm to 3:45pm
 - o Presentation – **Oracle and Linux for System z9**
TBD

There have been a number of recent announcements from Oracle and IBM regarding Oracle applications and workloads running on Linux for System z. Come hear the latest. Understand the Value Proposition. What's here today; what's coming tomorrow.

- 3:45pm to 4:00pm
 - o Q & A
- 4:00pm Adjourn

Location: **Aurora Healthcare
Aurora Conference Center
Sycamore Room
2920 West Dakota Street
Milwaukee, WI 53215**
